

BLOCK 01 · BRAND GUIDELINE (WRITTEN)

Company	Portfolio sample
Project	Before you paste, classify.
Aspect Ratio	16:9 HD (1920 x 1080)
Project Aim	A 10–18 minute habit module so remote EU knowledge workers classify data before any paste, prompt, or file share. Same habit in Rise 360 (blocks) and Storyline 360 (slides).
Alignment	Left (all learner-facing text)
Logo / artwork	Client supplies. Do not invent a mark.
Notes	Not a named client. No logo. Line icons only; no stock photo. Named ask-role still unconfirmed; on-screen copy uses “line manager or data-protection lead.” Do not use Poppins, Nunito, Outfit, Syne, Montserrat, IBM Plex, teal, cream stationery, black #000, or a red danger panel. Public site chrome stays navy / Outfit / Syne; this sheet is for the learning artefacts only.

BLOCK 03 · COLOUR SCALE (PICKER TARGET)

Solid fills. Open this page as PDF in a browser and sample the left column into Rise 360 or Storyline 360.

	Paper #FFFFFFPage and empty field
	Ink #3B3B3BTitles, body, player
	Do wash #DBE0DCAllowed / correct
	Don't wash #E8DED5Stop / incorrect
	Step wash #E6E6E6Steps / hover / headers

Production assets

Name	What it is	Where it is used	Status
Paper background #FFFFFF	Solid paper fill for the slide or block.	Rise 1.1, 2.1, 3.1, 6.1, 7.1.	In hand
Background title	16:9 image, 1920 × 1080. File Background title.png. Welcome frame, light enough for ink text.	Storyline 1.1.	Still to make
Background base	16:9 image, 1920 × 1080. File Background base.png. The working slide for this module.	Storyline 1.2, 2.1, 2.4, 2.5, 2.6, 3.1.	Still to make
Background do	16:9 image, 1920 × 1080. File Background do.png. Allowed path.	Storyline 2.2, 2.7.	Still to make
Background don't	16:9 image, 1920 × 1080. File Background don't.png. Stop path.	Storyline 2.3, 2.8.	Still to make
Background results	16:9 image, 1920 × 1080. File Background results.png. Completion frame.	Storyline 3.2.	Still to make

Production assets

Name	What it is	Where it is used	Status

Rise 360 — blocks

Rise 360 · P0

Assets	Rise player chrome
Format	Rise player chrome (every lesson)
Screen Copy	Menu Safe AI and data handling Previous Next Continue
Interactions	Default Rise player. Do not rename Continue except where a row gives a different button label. Menu lists the seven lesson titles. Tab to Continue, Enter to advance. No auto-play audio.

Rise 360 · 1.0

Assets	
Format	Lesson title (sidebar)
Screen Copy	Welcome
Interactions	Lesson label only. Not a heading on the canvas except in the menu.

Rise 360 · 1.1

Assets	Paper background #FFFFFF
Format	Cover / title plus body
Screen Copy	Before you paste, classify. Remote work is fast. Public AI tools and personal drives are faster still. This module is not a policy lecture. It is the 30-second habit your team needs before client text, staff data, or unpublished files leave an approved system.
Interactions	No click on the text. Heading is the cover title. Body is one paragraph under it.

Rise 360 · 1.2

Assets	Rise Continue button
Format	Continue button
Screen Copy	Start with a live decision
Interactions	Primary button. Goes to lesson 2. Only Continue label that is not the word Continue.

Rise 360 • 2.0

Assets	
Format	Lesson title (sidebar)
Screen Copy	Classify the data
Interactions	Menu label. Ungraded.

Rise 360 • 2.1

Assets	Paper background #FFFFFF
Format	Scenario / decision — stem (title plus body)
Screen Copy	A colleague asks you to “just drop this into ChatGPT and tidy it.” The file is a customer list with emails and contract values. What is it?
Interactions	Read only. Then two choices. Do not score. Choice B is the distractor. The list is personal and commercial data.

Rise 360 · 2.2

Assets	Rise scenario buttons
Format	Scenario / decision — two buttons
Screen Copy	Confidential or personal data — I must not paste it into a public AI tool. Harmless working text — public AI is fine.
Interactions	Single choice. First button → lesson 3 (Branch A). Second button → lesson 4 (Branch B). Buttons are the full sentences. After a click, Rise jumps; do not show both branches.

Rise 360 · 3.0

Assets	
Format	Lesson title (sidebar)
Screen Copy	Personal and commercial data
Interactions	Correct path only. Do wash on the block if Rise allows a coloured block.

Rise 360 · 3.1

Assets	Don't wash #E8DED5 Paper background #FFFFFF
Format	Title plus body (correct path)
Screen Copy	Stop. This is personal and commercial data. Emails and contract values are personal data and business-confidential. Public AI tools may store prompts. Your approved path is: redacted example, internal approved tool, or no AI.
Interactions	No extra buttons on the text.

Rise 360 · 3.2

Assets	Rise Continue button
Format	Continue button
Screen Copy	See the red lines
Interactions	Goes to lesson 5 (rejoin). Skip lesson 4.

Rise 360 • 4.0

Assets	
Format	Lesson title (sidebar)
Screen Copy	That list is not harmless
Interactions	Incorrect path. Coach, do not fail the module.

Rise 360 • 4.1

Assets	Don't wash #E8DED5
Format	Title plus body (incorrect path, coaching)
Screen Copy	That list is not harmless. Names, emails, and contract values are personal data under GDPR and confidential to the company. Public AI is the wrong path. You have not failed the module. You now take the same red-line screen as everyone else.
Interactions	No score. No "try again." Then the same rejoin as Branch A.

Rise 360 • 4.2

Assets	Rise Continue button
Format	Continue button
Screen Copy	See the red lines
Interactions	Goes to lesson 5 (rejoin).

Rise 360 • 5.0

Assets	
Format	Lesson title (sidebar)
Screen Copy	Three checks
Interactions	Both branches rejoin here.

Rise 360 • 5.1

Assets	Step tiles 01 02 03
Format	Title plus numbered process (01 02 03 on step tiles)
Screen Copy	Three checks before any AI or file share 01 What data is this? (public / internal / personal / customer) 02 Is this tool on the approved list? 03 If I am unsure, I do not paste — I ask my line manager or data-protection lead.
Interactions	If Process block: each number expands the same sentence; no extra words.

Rise 360 • 5.2

Assets	Rise Continue button
Format	Continue button
Screen Copy	Try one scenario
Interactions	Goes to lesson 6.

Rise 360 • 6.0

Assets	
Format	Lesson title (sidebar)
Screen Copy	One scenario
Interactions	Only scored lesson. Leave Rise retry default.

Rise 360 • 6.1

Assets	Paper background #FFFFFF
Format	Knowledge check — stem (title plus body)
Screen Copy	You are drafting a process note. You want AI to improve the English. The note includes one customer email address.
Interactions	Read the stem. Then three answers. One correct.

Rise 360 • 6.2

Assets	Rise multiple-choice control
Format	Knowledge check — multiple choice, one correct
Screen Copy	Remove the email (or replace with a fake), then use the approved tool. Paste the whole note into a public tool because it is “just one email.” Put the file on a personal Google Drive so a contractor can edit it overnight.
Interactions	First option is correct. Shuffle off. Keep this order.

Rise 360 • 6.3

Assets	Rise Submit button
Format	Knowledge check — Submit button
Screen Copy	Submit
Interactions	Reveals feedback. Do not auto-advance.

Rise 360 • 6.4

Assets	Do wash #DBE0DC
Format	Feedback layer — correct (do wash)
Screen Copy	Correct Redact first, then use an approved tool.
Interactions	Only if the first option was submitted. Then lesson 7.

Rise 360 · 6.5

Assets	Don't wash #E8DED5
Format	Feedback layer — incorrect (don't wash)
Screen Copy	Not quite One email is still personal data. Personal drives are not the contractor workaround.
Interactions	Same feedback for both wrong answers. Continue to lesson 7. Do not lock the close.

Rise 360 · 6.6

Assets	Rise Continue button
Format	Continue after feedback
Screen Copy	Continue
Interactions	Goes to lesson 7.

Rise 360 • 7.0

Assets	
Format	Lesson title (sidebar)
Screen Copy	The habit is the course
Interactions	Close. Not scored.

Rise 360 • 7.1

Assets	Paper background #FFFFFF
Format	Title plus body
Screen Copy	The habit is the course. Classify → approved tool or no AI → ask if unsure. Take the one-page job aid and keep it next to your desktop.
Interactions	No quiz. Omit the link if the PDF URL is not live; keep the sentence.

Rise 360 • 7.2

Assets	Rise completion chrome
Format	End / complete
Screen Copy	You're all done. Download your certificate Restart this course
Interactions	Leave Rise defaults. SCORM complete when this lesson is reached after the scored check.

Storyline 360 — scenes, slides, layers

Storyline 360 · 1.0

Assets	Storyline player chrome
Format	Player chrome (all slides)
Screen Copy	Menu Resources Exit Prev Next
Interactions	Menu titles match M2. Resources empty until the job-aid PDF is attached. Next disabled until the required click. Prev allowed except on 1.1.

Storyline 360 • 1.1

Assets	Background title Start button
Format	Title slide (welcome)
Screen Copy	Before you paste, classify. A 12-minute conversation. Same habit as the job aid. Start
Interactions	Start jumps to 1.2. Hide player Next. Animation $\leq 0.4s$. Start is a button.

Storyline 360 · 1.2

Assets	Background base
Format	Title plus body
Screen Copy	How this works You follow Jordan (line manager) and Alex (remote staff). You choose what Jordan says. Wrong choices are coached. One answer is scored at the end. Continue
Interactions	Continue → 2.1. No other buttons.

Storyline 360 • 2.1

Assets	Background base Caption Alex Storyline choice buttons
Format	Conversation — caption plus body (Alex speaks)
Screen Copy	Alex I'll just drop this into ChatGPT and tidy the English. It's a customer list. Emails and contract values. Should be quick. What should Jordan say? Don't paste that. Name the data first. Public AI is fine if you delete the chat afterwards.
Interactions	First button → 2.2, classifiedCorrect = True. Second → 2.3, False. Next disabled until a choice. Caption "Alex" is not a button.

Storyline 360 · 2.2

Assets	Background do Caption Jordan Caption Alex Do wash #DBE0DC
Format	Conversation — caption plus body, do wash on the reply bar
Screen Copy	Jordan Don't paste that. Emails and contract values are personal data and commercial data. Public tools may keep prompts. Classify first. Alex Right. So what do I do with it? Continue
Interactions	Only if classifiedCorrect is True. Continue → 2.4.

Storyline 360 · 2.3

Assets	Background don't Caption Alex Caption Jordan Don't wash #E8DED5
Format	Conversation — caption plus body, don't wash on the reply bar
Screen Copy	Alex I'll delete the chat. Nobody will see it. Jordan Deleting the chat does not make the paste safe. Names, emails, and contract values are personal data under GDPR and confidential to the company. You have not failed. We classify it now, same as everyone else. Continue
Interactions	Only if classifiedCorrect is False. Continue → 2.4. No fail screen.

Storyline 360 · 2.4

Assets	Background base Type buttons Storyline Submit button Button states
Format	Title plus four choice buttons (classify)
Screen Copy	What data is this? Public Internal Personal Customer Submit
Interactions	One selection. Personal and Customer both acceptable. Public and Internal wrong. Submit: Personal or Customer → classifiedCorrect True + layer L-right. Else False + L-wrong. Submit disabled until one type.

Storyline 360 · 2.4 L-right

Assets	Do wash #DBE0DC Dim base slide
Format	Feedback layer — correct (do wash)
Screen Copy	Correct This list is personal data and customer data. It is not public. It is not merely internal working text. Continue
Interactions	Continue hides the layer and jumps to 2.5.

Storyline 360 · 2.4 L-wrong

Assets	Don't wash #E8DED5 Dim base slide
Format	Feedback layer — incorrect (don't wash)
Screen Copy	Not public. Not merely internal. Emails and contract values are personal data and customer data. Classify it as that, then choose the tool. Continue
Interactions	Continue → 2.5. Same destination as correct. Do not loop unless Prev.

Storyline 360 • 2.5

Assets	Background base Step tiles 01 02 03
Format	Title plus three step tiles (01 02 03)
Screen Copy	Three checks before any AI or file share 01 What data is this? (public / internal / personal / customer) 02 Is this tool on the approved list? 03 If I am unsure, I do not paste — I ask my line manager or data-protection lead. Continue
Interactions	Optional selected state, same words. Continue → 2.6. Clicking tile 03 sets askedIfUnsure = True.

Storyline 360 • 2.6

Assets	Background base Caption Alex Caption Jordan Storyline choice buttons
Format	Conversation — caption plus three choices (scored)
Screen Copy	Alex OK. I still want better English. What is the approved move? Jordan — choose one Strip the emails (or use a fake), then use the approved tool. Paste it. It's only one list. Put it on my personal Drive so a contractor can edit overnight.
Interactions	First: ScorePercent = 100 → 2.7. Second or third: 0 → 2.8. Same three choices even if classifiedCorrect was False.

Storyline 360 · 2.7

Assets	Background do Do wash #DBE0DC
Format	Title plus body (correct close of conversation, do wash)
Screen Copy	Correct Redact first, then use an approved tool. That is the whole habit. Continue
Interactions	Continue → 3.1.

Storyline 360 · 2.8

Assets	Background don't Don't wash #E8DED5
Format	Title plus body (incorrect close of conversation, don't wash)
Screen Copy	Not quite One list with emails is still personal data. Personal drives are not the contractor workaround. Redact first, or do not use AI. Continue
Interactions	Same slide for both wrong answers. Continue → 3.1. Score stays 0.

Storyline 360 · 3.1

Assets	Background base
Format	Title plus body (close)
Screen Copy	The habit is the course Classify → approved tool or no AI → ask if unsure. Take the one-page job aid and keep it next to your desktop. Finish
Interactions	Same close whether askedIfUnsure is True or False. Finish completes the course and goes to 3.2.

Storyline 360 · 3.2

Assets	Background results Results score
Format	Results / complete
Screen Copy	You're done. Your score: %ScorePercent%% Review Exit
Interactions	Always success (habit module; score is shown, not a pass mark). Review → 2.6. Exit closes the player. SCORM 1.2 complete when 3.1 Finish is clicked.

Storyline 360 · M1

Assets	Button states
Format	Button states (all choice buttons)
Screen Copy	Normal: ink text on paper Hover: ink text on step #E6E6E6 Selected: ink text on do #DBE0DC Disabled: ink at 50% Visited: same as Normal with a 1 px ink underline
Interactions	Apply to every choice button.

Storyline 360 • M2

Assets	Menu labels
Format	Menu titles (exact)
Screen Copy	Welcome How this works Alex asks Jordan — don't paste Jordan — coach Classify the file Three checks The approved move Correct Not quite The habit is the course You're done
Interactions	Show 2.2 only if classifiedCorrect is True; 2.3 only if False — or restrict navigation to previously viewed.

Storyline 360 • M3

Assets	Screen-reader names
Format	Accessibility names (not visible; screen reader)
Screen Copy	Start Continue Don't paste that. Name the data first. Public AI is fine if you delete the chat afterwards. Public Internal Personal Customer Submit Strip the emails (or use a fake), then use the approved tool. Paste it. It's only one list. Put it on my personal Drive so a contractor can edit overnight. Finish Review Exit
Interactions	No "click here." Character alt: Jordan, line manager / Alex, remote staff.
