

BLOCK 01 · BRAND GUIDELINE (WRITTEN)

Company	Portfolio sample
Project	Before you paste, classify.
Aspect Ratio	16:9 HD (1920 x 1080)
Project Aim	A 10–18 minute habit module so remote EU knowledge workers classify data before any paste, prompt, or file share. Same habit in Rise 360 (blocks) and Storyline 360 (slides).
Alignment	Left (all learner-facing text)
Logo / artwork	Client supplies. Do not invent a mark.
Notes	Not a named client. No logo. Line icons only; no stock photo. Named ask-role still unconfirmed; on-screen copy uses “line manager or data-protection lead.” Do not use Poppins, Nunito, Outfit, Syne, Montserrat, IBM Plex, teal, cream stationery, black #000, or a red danger panel. Public site chrome stays navy / Outfit / Syne; this sheet is for the learning artefacts only.

Caption

BLOCK 03 · COLOUR SCALE (PICKER TARGET)

Solid fills. Open this page as PDF in a browser and sample the left column into Rise 360 or Storyline 360.

	Paper #FFFFFFPage and empty field
	Ink #3B3B3BTitles, body, player
	Do wash #DBE0DCAllowed / correct
	Don't wash #E8DED5Stop / incorrect
	Step wash #E6E6E6Steps / hover / headers

Rise 360 — blocks

Rise 360 · P0

Assets	Slide / block background: solid paper #FFFFFF. No background photograph. No 360° image. Type (learner-facing): Open Sauce One 400/500/600 and League Gothic Regular. Install on Windows before trial week. Embed on publish. No audio. No logo.
Format	Rise player chrome (every lesson)
Screen Copy	Menu Safe AI and data handling Previous Next Continue
Interactions	Default Rise player. Do not rename Continue except where a row gives a different button label. Menu lists the seven lesson titles. Tab to Continue, Enter to advance. No auto-play audio.

Rise 360 • 1.0

Assets	None. Sidebar label only.
Format	Lesson title (sidebar)
Screen Copy	Welcome
Interactions	Lesson label only. Not a heading on the canvas except in the menu.

Rise 360 • 1.1

Assets	Slide / block background: solid paper #FFFFFF. No background photograph. No 360° image. Optional line icon only (classify / stop). If used: SVG or PNG, ink #3B3B3B, alt text required. No photo.
Format	Cover / title plus body
Screen Copy	Before you paste, classify. Remote work is fast. Public AI tools and personal drives are faster still. This module is not a policy lecture. It is the 30-second habit your team needs before client text, staff data, or unpublished files leave an approved system.
Interactions	No click on the text. Heading is the cover title. Body is one paragraph under it. Do wash not required.

Rise 360 · 1.2

Assets	Button: Rise default Continue control. Ink on paper. No custom image.
Format	Continue button
Screen Copy	Start with a live decision
Interactions	Primary button. Goes to lesson 2. Only Continue label that is not the word Continue.

Rise 360 · 2.0

Assets	None. Sidebar label only.
Format	Lesson title (sidebar)
Screen Copy	Classify the data
Interactions	Menu label. Ungraded.

Rise 360 • 2.1

Assets	Slide / block background: solid paper #FFFFFF. No background photograph. No 360° image. No character art in Rise. No photo of a “colleague.”
Format	Scenario / decision — stem (title plus body)
Screen Copy	A colleague asks you to “just drop this into ChatGPT and tidy it.” The file is a customer list with emails and contract values. What is it?
Interactions	Read only. Then two choices. Do not score. Choice B is the distractor. The list is personal and commercial data.

Rise 360 • 2.2

Assets	Two Rise scenario buttons. No extra icons required.
Format	Scenario / decision — two buttons
Screen Copy	Confidential or personal data — I must not paste it into a public AI tool. Harmless working text — public AI is fine.
Interactions	Single choice. First button → lesson 3 (Branch A). Second button → lesson 4 (Branch B). Buttons are the full sentences. After a click, Rise jumps; do not show both branches.

Rise 360 · 3.0

Assets	None. Sidebar label only.
Format	Lesson title (sidebar)
Screen Copy	Personal and commercial data
Interactions	Correct path only. Do wash on the block if Rise allows a coloured block.

Rise 360 · 3.1

Assets	Block fill: don't wash #E8DED5 behind "Stop." if Rise coloured blocks are used. Slide / block background: solid paper #FFFFFF. No background photograph. No 360° image.
Format	Title plus body (correct path)
Screen Copy	Stop. This is personal and commercial data. Emails and contract values are personal data and business-confidential. Public AI tools may store prompts. Your approved path is: redacted example, internal approved tool, or no AI.
Interactions	No extra buttons on the text.

Rise 360 • 3.2

Assets	Button: Rise Continue. No custom image.
Format	Continue button
Screen Copy	See the red lines
Interactions	Goes to lesson 5 (rejoin). Skip lesson 4.

Rise 360 • 4.0

Assets	None. Sidebar label only.
Format	Lesson title (sidebar)
Screen Copy	That list is not harmless
Interactions	Incorrect path. Coach, do not fail the module.

Rise 360 · 4.1

Assets	Block fill: don't wash #E8DED5 behind the heading if a coloured block is used.
Format	Title plus body (incorrect path, coaching)
Screen Copy	That list is not harmless. Names, emails, and contract values are personal data under GDPR and confidential to the company. Public AI is the wrong path. You have not failed the module. You now take the same red-line screen as everyone else.
Interactions	No score. No "try again." Then the same rejoin as Branch A.

Rise 360 · 4.2

Assets	Button: Rise Continue. No custom image.
Format	Continue button
Screen Copy	See the red lines
Interactions	Goes to lesson 5 (rejoin).

Rise 360 • 5.0

Assets	None. Sidebar label only.
Format	Lesson title (sidebar)
Screen Copy	Three checks
Interactions	Both branches rejoin here.

Rise 360 • 5.1

Assets	Three process tiles, equal width, fill step wash #E6E6E6. Numerals 01 02 03 in League Gothic. Captions in Open Sauce One 400. No photographs. No 360° images.
Format	Title plus numbered process (01 02 03 on step tiles)
Screen Copy	Three checks before any AI or file share 01 What data is this? (public / internal / personal / customer) 02 Is this tool on the approved list? 03 If I am unsure, I do not paste — I ask my line manager or data-protection lead.
Interactions	If Process block: each number expands the same sentence; no extra words.

Rise 360 • 5.2

Assets	Button: Rise Continue. No custom image.
Format	Continue button
Screen Copy	Try one scenario
Interactions	Goes to lesson 6.

Rise 360 • 6.0

Assets	None. Sidebar label only.
Format	Lesson title (sidebar)
Screen Copy	One scenario
Interactions	Only scored lesson. Leave Rise retry default.

Rise 360 • 6.1

Assets	Slide / block background: solid paper #FFFFFF. No background photograph. No 360° image. No illustration of an email.
Format	Knowledge check — stem (title plus body)
Screen Copy	You are drafting a process note. You want AI to improve the English. The note includes one customer email address.
Interactions	Read the stem. Then three answers. One correct.

Rise 360 • 6.2

Assets	Rise multiple-choice control. No extra assets.
Format	Knowledge check — multiple choice, one correct
Screen Copy	Remove the email (or replace with a fake), then use the approved tool. Paste the whole note into a public tool because it is “just one email.” Put the file on a personal Google Drive so a contractor can edit it overnight.
Interactions	First option is correct. Shuffle off. Keep this order.

Rise 360 · 6.3

Assets	Button: Rise Submit. No custom image.
Format	Knowledge check — Submit button
Screen Copy	Submit
Interactions	Reveals feedback. Do not auto-advance.

Rise 360 · 6.4

Assets	Feedback panel fill: do wash #DBE0DC. Text ink.
Format	Feedback layer — correct (do wash)
Screen Copy	Correct Redact first, then use an approved tool.
Interactions	Only if the first option was submitted. Then lesson 7.

Rise 360 • 6.5

Assets	Feedback panel fill: don't wash #E8DED5. Text ink.
Format	Feedback layer — incorrect (don't wash)
Screen Copy	Not quite One email is still personal data. Personal drives are not the contractor workaround.
Interactions	Same feedback for both wrong answers. Continue to lesson 7. Do not lock the close.

Rise 360 • 6.6

Assets	Button: Rise Continue. No custom image.
Format	Continue after feedback
Screen Copy	Continue
Interactions	Goes to lesson 7.

Rise 360 • 7.0

Assets	None. Sidebar label only.
Format	Lesson title (sidebar)
Screen Copy	The habit is the course
Interactions	Close. Not scored.

Rise 360 • 7.1

Assets	Optional later: job-aid PDF as a text link only when the public URL is the one you want. File name if attached: before-you-paste-classify.pdf. Do not put a URL on screen until it is live.
Format	Title plus body
Screen Copy	The habit is the course. Classify → approved tool or no AI → ask if unsure. Take the one-page job aid and keep it next to your desktop.
Interactions	No quiz. Omit the link if the PDF URL is not live; keep the sentence.

Rise 360 • 7.2

Assets	Rise default completion chrome. Do not design a fake certificate.
Format	End / complete
Screen Copy	You're all done. Download your certificate Restart this course
Interactions	Leave Rise defaults. SCORM complete when this lesson is reached after the scored check.

Storyline 360 — scenes, slides, layers

Storyline 360 · 1.0

Assets	Storyline player chrome. Menu, Resources, Exit, Prev, Next. No custom skin graphic. Player: ink on paper.
Format	Player chrome (all slides)
Screen Copy	Menu Resources Exit Prev Next
Interactions	Menu titles match M2. Resources empty until the job-aid PDF is attached. Next disabled until the required click. Prev allowed except on 1.1.

Storyline 360 • 1.1

Assets	Slide / block background: solid paper #FFFFFF. No background photograph. No 360° image. Type (learner-facing): Open Sauce One 400/500/600 and League Gothic Regular. Install on Windows before trial week. Embed on publish. Start button: rectangle, paper fill, 2 px ink outline. No logo. No photo.
Format	Title slide (welcome)
Screen Copy	Before you paste, classify. A 12-minute conversation. Same habit as the job aid. Start
Interactions	Start jumps to 1.2. Hide player Next. Animation ≤ 0.4s. Start is a button.

Storyline 360 • 1.2

Assets	Slide / block background: solid paper #FFFFFF. No background photograph. No 360° image. No audio file yet. If audio is added later, the on-screen words are the script. No waveform graphic.
Format	Title plus body
Screen Copy	How this works You follow Jordan (line manager) and Alex (remote staff). You choose what Jordan says. Wrong choices are coached. One answer is scored at the end. Continue
Interactions	Continue → 2.1. No other buttons.

Storyline 360 • 2.1

Assets	Slide / block background: solid paper #FFFFFF. No background photograph. No 360° image. Character asset: “Alex, remote staff.” Storyline illustrated character or caption bar only. No photograph unless Keith supplies one. Alt: Alex, remote staff. Two choice buttons (no icons).
Format	Conversation — caption plus body (Alex speaks)
Screen Copy	Alex I’ll just drop this into ChatGPT and tidy the English. It’s a customer list. Emails and contract values. Should be quick. What should Jordan say? Don’t paste that. Name the data first. Public AI is fine if you delete the chat afterwards.
Interactions	First button → 2.2, classifiedCorrect = True. Second → 2.3, False. Next disabled until a choice. Caption “Alex” is not a button.

Storyline 360 · 2.2

Assets	Character asset: “Jordan, line manager.” Illustrated or caption bar. Alt: Jordan, line manager. Reply bar fill: do wash #DBE0DC.
Format	Conversation — caption plus body, do wash on the reply bar
Screen Copy	Jordan Don’t paste that. Emails and contract values are personal data and commercial data. Public tools may keep prompts. Classify first. Alex Right. So what do I do with it? Continue
Interactions	Only if classifiedCorrect is True. Continue → 2.4.

Storyline 360 · 2.3

Assets	Same Jordan / Alex assets as 2.2. Reply bar fill: don't wash #E8DED5.
Format	Conversation — caption plus body, don't wash on the reply bar
Screen Copy	Alex I'll delete the chat. Nobody will see it. Jordan Deleting the chat does not make the paste safe. Names, emails, and contract values are personal data under GDPR and confidential to the company. You have not failed. We classify it now, same as everyone else. Continue
Interactions	Only if classifiedCorrect is False. Continue → 2.4. No fail screen.

Storyline 360 · 2.4

Assets	Slide / block background: solid paper #FFFFFF. No background photograph. No 360° image. Four type buttons (Public, Internal, Personal, Customer). No icons required. Submit button. States: Normal, Hover (step wash), Selected (do wash), Visited (ink underline), Disabled (ink 50%).
Format	Title plus four choice buttons (classify)
Screen Copy	What data is this? Public Internal Personal Customer Submit
Interactions	One selection. Personal and Customer both acceptable. Public and Internal wrong. Submit: Personal or Customer → classifiedCorrect True + layer L-right. Else False + L-wrong. Submit disabled until one type.

Storyline 360 · 2.4 L-right

Assets	Layer panel fill: do wash #DBE0DC. Dim base slide. No close-X graphic.
Format	Feedback layer — correct (do wash)
Screen Copy	Correct This list is personal data and customer data. It is not public. It is not merely internal working text. Continue
Interactions	Continue hides the layer and jumps to 2.5.

Storyline 360 · 2.4 L-wrong

Assets	Layer panel fill: don't wash #E8DED5. Dim base slide.
Format	Feedback layer — incorrect (don't wash)
Screen Copy	Not public. Not merely internal. Emails and contract values are personal data and customer data. Classify it as that, then choose the tool. Continue
Interactions	Continue → 2.5. Same destination as correct. Do not loop unless Prev.

Storyline 360 • 2.5

Assets	Three rectangles, equal, fill step wash #E6E6E6. Numerals 01 02 03: League Gothic. No 360° image. No photo.
Format	Title plus three step tiles (01 02 03)
Screen Copy	Three checks before any AI or file share 01 What data is this? (public / internal / personal / customer) 02 Is this tool on the approved list? 03 If I am unsure, I do not paste — I ask my line manager or data-protection lead. Continue
Interactions	Optional selected state, same words. Continue → 2.6. Clicking tile 03 sets askedIfUnsure = True.

Storyline 360 · 2.6

Assets	Same Alex / Jordan assets. Three choice buttons. This is the scored item (Q1_approved_move).
Format	Conversation — caption plus three choices (scored)
Screen Copy	Alex OK. I still want better English. What is the approved move? Jordan — choose one Strip the emails (or use a fake), then use the approved tool. Paste it. It's only one list. Put it on my personal Drive so a contractor can edit overnight.
Interactions	First: ScorePercent = 100 → 2.7. Second or third: 0 → 2.8. Same three choices even if classifiedCorrect was False.

Storyline 360 · 2.7

Assets	Panel fill: do wash #DBE0DC.
Format	Title plus body (correct close of conversation, do wash)
Screen Copy	Correct Redact first, then use an approved tool. That is the whole habit. Continue
Interactions	Continue → 3.1.

Storyline 360 · 2.8

Assets	Panel fill: don't wash #E8DED5.
Format	Title plus body (incorrect close of conversation, don't wash)
Screen Copy	Not quite One list with emails is still personal data. Personal drives are not the contractor workaround. Redact first, or do not use AI. Continue
Interactions	Same slide for both wrong answers. Continue → 3.1. Score stays 0.

Storyline 360 • 3.1

Assets	Optional player resource: Job aid (PDF) — attach only when the file is the live public PDF. No URL on the slide until live.
Format	Title plus body (close)
Screen Copy	The habit is the course Classify → approved tool or no AI → ask if unsure. Take the one-page job aid and keep it next to your desktop. Finish
Interactions	Same close whether askedIfUnsure is True or False. Finish completes the course and goes to 3.2.

Storyline 360 · 3.2

Assets	Results slide. Hide Storyline Success / Failure headings if they appear. Variable reference for score. No certificate graphic.
Format	Results / complete
Screen Copy	You're done. Your score: %ScorePercent%% Review Exit
Interactions	Always success (habit module; score is shown, not a pass mark). Review → 2.6. Exit closes the player. SCORM 1.2 complete when 3.1 Finish is clicked.

Storyline 360 · M1

Assets	Button state fills only. No extra words on states. Don't wash is for incorrect feedback layers, not hover.
Format	Button states (all choice buttons)
Screen Copy	Normal: ink text on paper Hover: ink text on step #E6E6E6 Selected: ink text on do #DBE0DC Disabled: ink at 50% Visited: same as Normal with a 1 px ink underline
Interactions	Apply to every choice button.

Storyline 360 • M2

Assets	Menu labels only. Layers are not in the menu.
Format	Menu titles (exact)
Screen Copy	Welcome How this works Alex asks Jordan — don't paste Jordan — coach Classify the file Three checks The approved move Correct Not quite The habit is the course You're done
Interactions	Show 2.2 only if classifiedCorrect is True; 2.3 only if False — or restrict navigation to previously viewed.

Storyline 360 • M3

Assets	No extra visible type. Screen-reader names match visible labels.
Format	Accessibility names (not visible; screen reader)
Screen Copy	Start Continue Don't paste that. Name the data first. Public AI is fine if you delete the chat afterwards. Public Internal Personal Customer Submit Strip the emails (or use a fake), then use the approved tool. Paste it. It's only one list. Put it on my personal Drive so a contractor can edit overnight. Finish Review Exit
Interactions	No "click here." Character alt: Jordan, line manager / Alex, remote staff.
