| <b>Company</b>        | Portfolio sample                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Project</b>        | Before you paste, classify.                                                                                                                                                                                                                                                                                                                                                          |
| <b>Aspect Ratio</b>   | 16:9 HD (1920 x 1080)                                                                                                                                                                                                                                                                                                                                                                |
| <b>Project Aim</b>    | A 10–18 minute habit module so remote EU knowledge workers classify data before any paste, prompt, or file share. Same habit in Rise 360 (blocks) and Storyline 360 (slides).                                                                                                                                                                                                        |
| <b>Alignment</b>      | Left (all learner-facing text)                                                                                                                                                                                                                                                                                                                                                       |
| <b>Logo / artwork</b> | Client supplies. Do not invent a mark.                                                                                                                                                                                                                                                                                                                                               |
| <b>Notes</b>          | Not a named client. No logo. Line icons only; no stock photo. Named ask-role still unconfirmed; on-screen copy uses “line manager or data-protection lead.” Do not use Poppins, Nunito, Outfit, Syne, Montserrat, IBM Plex, teal, cream stationery, black #000, or a red danger panel. Public site chrome stays navy / Outfit / Syne; this sheet is for the learning artefacts only. |

| Interactions | Default Rise player. Do not rename Continue except where a row gives a different button label. Menu lists the seven lesson titles. Tab to Continue, Enter to advance. No auto-play audio. |

## Rise 360 • 1.0

|                     |                                                                    |
|---------------------|--------------------------------------------------------------------|
| <b>Assets</b>       |                                                                    |
| <b>Format</b>       | Lesson title (sidebar)                                             |
| <b>Screen Copy</b>  | Welcome                                                            |
| <b>Interactions</b> | Lesson label only. Not a heading on the canvas except in the menu. |

## Rise 360 • 1.1

|                     |                                                                                                                                                                                                                                                                                    |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Assets</b>       | Slide / block background: solid paper #FFFFFF.                                                                                                                                                                                                                                     |
| <b>Format</b>       | Cover / title plus body                                                                                                                                                                                                                                                            |
| <b>Screen Copy</b>  | <p>Before you paste, classify.</p> <p>Remote work is fast. Public AI tools and personal drives are faster still. This module is not a policy lecture. It is the 30-second habit your team needs before client text, staff data, or unpublished files leave an approved system.</p> |
| <b>Interactions</b> | No click on the text. Heading is the cover title. Body is one paragraph under it.                                                                                                                                                                                                  |

## Rise 360 • 1.2

|                     |                                                                                      |
|---------------------|--------------------------------------------------------------------------------------|
| <b>Assets</b>       | Rise default Continue button. Ink on paper.                                          |
| <b>Format</b>       | Continue button                                                                      |
| <b>Screen Copy</b>  | Start with a live decision                                                           |
| <b>Interactions</b> | Primary button. Goes to lesson 2. Only Continue label that is not the word Continue. |

## Rise 360 • 2.0

|                     |                        |
|---------------------|------------------------|
| <b>Assets</b>       |                        |
| <b>Format</b>       | Lesson title (sidebar) |
| <b>Screen Copy</b>  | Classify the data      |
| <b>Interactions</b> | Menu label. Ungraded.  |

## Rise 360 • 2.1

|                     |                                                                                                                                                    |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Assets</b>       | Slide / block background: solid paper #FFFFFF.                                                                                                     |
| <b>Format</b>       | Scenario / decision — stem (title plus body)                                                                                                       |
| <b>Screen Copy</b>  | A colleague asks you to “just drop this into ChatGPT and tidy it.”<br><br>The file is a customer list with emails and contract values. What is it? |
| <b>Interactions</b> | Read only. Then two choices. Do not score. Choice B is the distractor. The list is personal and commercial data.                                   |

## Rise 360 • 2.2

|                     |                                                                                                                                                                               |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Assets</b>       | Two Rise scenario buttons.                                                                                                                                                    |
| <b>Format</b>       | Scenario / decision — two buttons                                                                                                                                             |
| <b>Screen Copy</b>  | Confidential or personal data — I must not paste it into a public AI tool.<br><br>Harmless working text — public AI is fine.                                                  |
| <b>Interactions</b> | Single choice. First button → lesson 3 (Branch A). Second button → lesson 4 (Branch B). Buttons are the full sentences. After a click, Rise jumps; do not show both branches. |

## Rise 360 · 3.0

|                     |                                                                          |
|---------------------|--------------------------------------------------------------------------|
| <b>Assets</b>       |                                                                          |
| <b>Format</b>       | Lesson title (sidebar)                                                   |
| <b>Screen Copy</b>  | Personal and commercial data                                             |
| <b>Interactions</b> | Correct path only. Do wash on the block if Rise allows a coloured block. |
