

Data Protection Job Aid

Before You Paste — Classify

Remote work is fast. Public AI and personal drives are faster. Take 30 seconds.

Classify Before You Paste

Public website content,
no people named

→ **Public**

Internal process, no personal data

→ **Internal**

(approved tools only)

Names, emails, staff files

→ **Personal data — don't paste**

Customer lists, contracts

→ **Confidential — don't paste**

Never Do This

Paste live files into public AI tools

Put work on personal drives
without approval

Share data with unapproved AI
tools

Bypass the 30-second
classification check

Skip asking when unsure about
data type

01

What data is this?
Public / internal /
personal / customer

02

Is this tool approved?
Check the approved
AI tools list

03

Unsure? Don't paste
— ask your line
manager or data-
protection lead.

Three checks before any AI or file share.

Personal or customer data: remove real details or use fake examples.
